## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims **14-17, 19-27** are allowed.

As to claims **14 and 26**, the prior art of record, taken alone or in combination, fails to disclose or render obvious an interferometer configured to use the diffracted light to determine a position of the alignment mark to produce a control signal related to the determined position, wherein the interferometer is configured to determine the position of the alignment mark using an interference pattern, in combination with the rest of the limitations of the claim.

As to claim **20**, the prior art of record, taken alone or in combination, fails to disclose or render obvious determining a position of the alignment mark based on an interference pattern generated from the combining step, in combination with the rest of the limitations of the claim.

As to claim **27**, the prior art of record, taken alone or in combination, fails to disclose or render obvious a sensor configured to receive the interferogram, the interference pattern, or the interference fringes and to generate an alignment signal therefrom, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

This application is in condition for allowance except for the following formal matters:

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the interferometer must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

Claim **15** is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claim **27** is objected to because of the following informalities: Lines 9-13 of the claim are unclear the Examiner. Therefore, it is suggested that the wording and grammar of the final lines of claim 27 be amended to better convey the desired claim limitations. Appropriate correction is required.

### ***Conclusion***

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
